## Why is Independently Tested Accuracy of this Assessment Important?

A recent review revealed a **significant majority of assessments available today were absent the studies & reporting to confirm their accuracy.** Of the small minority which claimed reporting, the significant majority of those were conducted privately; oftentimes by the assessment provider itself, rather than an objective and scientifically qualified third party. However, we are leading by example in this otherwise unregulated industry. How are we doing this? By submitting our assessments to an objective, independently conducted battery of tests: Construct Validity, Reliability, and Disparate Impact - all by a qualified scientific authority (*Assessment Standards Institute*). Our goal? Ensuring the trust and confidence of our users by producing the industry’s most accurate and class protected assessments. Please turn to the last page of this report to learn more on this topic, and the steps we’ve taken to safeguard the scientific accuracy of this assessment.

# Welcome to the DISCstyles™ Online Report

## INTRODUCTION

DISC is a simple, practical, easy to remember and universally applicable model. It focuses on individual patterns of external, observable behaviors and measures the intensity of characteristics using scales of directness and openness for each of the four styles: **Dominance, Influence, Steadiness, and Conscientious**.

Using the DISC model, it is easy to identify and understand our own style, recognize and cognitively adapt to different styles, and develop a process to communicate more effectively with others.

## HOW TO USE THIS REPORT

The DISC report is divided into 3 parts introducing the DISC model, helping you understand your own style, and identifying ways that you can apply your style strengths or modify your style weaknesses in order to meet the needs of others.

- **Part I** focuses on understanding each of the DISC styles and identifying characteristics, including the tendencies of each behavioral style
- **Part II** is about understanding yourself and will reveal information about the tendencies that make you unique
- **Part III** examines and explores adaptability and offers actionable recommendations for you and others who interact with you

With this personalized and comprehensive report, DISC gives you tools to help you become a better you - to develop and use more of your natural strengths while recognizing, improving upon, and modifying your limitations. Then, because we can easily see and hear these behaviors, we can quickly and accurately “read” other people and use our knowledge to enhance communication and grow our relationships.

**Please Note:** Any behavioral descriptions mentioned in this report are only **tendencies** for your style group and may or may not specifically apply to you personally.
